

Founded in 1980, Exim Incorporated (“Exim”) is the market’s oldest cash buyer in the United States. Its reputation revolves around the principal concept of PartnerShip. Its trading partners are involved in lifelong relationships. Its database of partners include Fortune 100 corporations that rely on Exim’s professional staff to provide unique cradle to grave solutions. It is Exim’s worldwide presence that allows it to support its partners.

Exim provides many out of the box solutions for any recyclable commodity generator. Generator waste includes: Ships, Ferrous Material, Non-Ferrous Material, Plastic, and Cardboard.

Exim’s ability to be a one stop shop for all ship recycling needs has allowed it to support ship owners. Exim provides full ship management solutions which allows owners to sell vessels on an as is where is basis.

Exim’s experienced management has been critical in establishing America’s premier ship recycling operation which processed the first US Navy first supercarrier, USS Forrestal. Its management team is well versed in safe and environmentally sound ship recycling requirements.

Partner with Exim and see the professional attitude it brings to the recycling industry!
